Coach & Mentor

The Coach & Mentor domain offers enthuvance, the advancement through enthusiasm founded in the coaching and mentoring competencies. Our coaching programmes are valuable to those who wish to develop and apply these competencies to enhance work and life performance. The BluAgile™ D3ika methodology provides the grounding for personal and career development, expert mentor coaching and or credentialing as a mentor coach. This offers a unique opportunity for both aspiring and practising forward-thinking professionals. Reap the benefit of collecting domain-specific Continuous Professional Development (CPD) points relevant to your particular field of interest, and learn how to apply BluAgile™ Methodology in your domain.

Practitioner

The Practitioner programmes follow experiential learning to develop community of practices in your domain whilst tapping into a cooperative perspective of global practitionership. BluAgile™ Practitioner Essentials drive the practitioner credentialing journey, including all milestones. Replenish, refine and achieve continued renewable development deliverables in your domain and or particular craft. The unique practitioner courses contribute to developing much needed skills and capabilities in the workforce today. The practitioner journey allows you to credential as a practitioner and be able to continuously better your skills set. This is the ideal solution for forward-thinking practitioners interested in promoting self and others in these unique and exclusive occupations.
